Certain Relationships and Related Transactions

Effective April 1, 2001, the Company purchased 29.633% of the limited partnership interests of Crescent Valley Partners, L.P. ("CVP"), for \$72,000 per percentage of partnership interest, or \$2,133,540. CVP is a Colorado limited partnership of which the Company's wholly-owned subsidiary, Denver Mining Finance Company ("DMFC"), is the general partner. DMFC maintains a 2% interest in CVP.

CVP was formed by certain affiliates of the Company in December 1991, in order to purchase from the Company, for \$400,000, one-half of a \$750,000 "capped" royalty on mineral production from the GAS Claims, and a 1.25% "net value" royalty on mineral production from 200 unpatented mining claims that were the subject of a Mining Lease dated April 15, 1991 between ECM, Inc. and Cortez Gold Mines joint venture. (The GAS Claims comprise all of the mining claims subject to the described Mining Lease, and those claims host the South Pipeline portion of the gold deposits that now comprise the Pipeline Mining Complex, and the development deposits described as "Windmill", "GAP", and "Crossroads" in the Company's prior filings, under the Securities Exchange Act of 1934.) At the time of CVP's formation in 1991, the Company was experiencing a liquidity crisis and chose to sell, the described interests to CVP to raise cash for operations.

In March 2001, the Company offered to purchase the entirety of the limited partnership interests of CVP, as described above. The Company's offer was premised on the following factors:

- Cortez had secured all requisite permits for the mining of the South Pipeline deposit.
- Cortez had initiated pre-stripping of the overburden related to the South Pipeline deposit.
- In August 1999, the Company had purchased from a group of individuals, an entity not affiliated with the Company or CVP, and its partners, for \$150 per attributable royalty ounce of gold, a substantial royalty on both the Pipeline and South Pipeline deposits (known as "GSR3"). This transaction served as an appropriate comparable sale for the Company's offer to CVP, because it related to what is substantially the same ore deposit, being exploited by the same operator; the GSR3 purchase was executed at a time when the gold price was precisely the same dollar amount as in March 2001; and the consideration paid by the Company for GSR3 was the same, per projected royalty ounce, as the offer that was made to CVP.

Of the 24 limited partners of CVP, the following persons who were officers, directors, nominees for director, or holders of five percent (5%) or more of the Company's Common Stock, and any immediate family member of such persons, either at the time of CVP's formation, or at the time of the Company's offer to purchase CVP interests, participated in the transaction that closed on April 1, 2001:

Compensation To Directors

During fiscal 2001, each non-employee director of the Company received an annual fee of \$12,000 for service as a director. Directors are not compensated for committee participation. The outside directors' fee has remained fixed at \$12,000 per year since 1997.

Pursuant to the Company's Equity Incentive Plan, each non-employee director of the Company is granted annually a Non-Statutory Option ("NSO") to purchase 5,000 shares of Common Stock at an exercise price equal to the fair market value of the Company's Common Stock on the date of grant. Accordingly, on November 14, 2000, each non-employee director of the Company was granted 5,000 NSOs, at an exercise price of \$2.813 per share. These options have a ten year term and are exercisable immediately with respect to 2,500 shares and after 12 months with respect to the other 2,500 shares.

Mr. Edwin W. Peiker, Jr. has a consulting agreement with the Company, in which he is paid a hourly fee plus expenses. During fiscal year 2001, Mr. Peiker was paid \$4,500 under this agreement.

Employment Contracts

All of the officers of the Company are employed pursuant to an employment contract providing for salary at current salary levels. Each of the employment contracts is renewable, for a term of 12 months, every February. Pursuant to each of the employment contracts, salary and benefits are to be continued for 12 months following such employee's involuntary termination, or following such employee's voluntary termination for "good reason" after a "change in control" event. A change in control event, as defined in the employment contracts, will occur upon: (1) the acquisition, directly or indirectly, by any person or related group of persons, of beneficial ownership of securities possessing more than thirty percent (30%) of the total combined voting power of the Company's outstanding securities; (2) a change in the composition of the Board over a period of eighteen (18) consecutive months or less such that fifty percent (50%) or more of the Board members cease to be directors who either (A) have been directors continuously since the beginning of such period, or (B) have been unanimously elected or nominated by the Board for election as directors during such period; (3) a stockholder-approved merger or consolidation to which the Company is a party and in which (A) the Company is not the surviving entity, or (B) securities possessing more than thirty percent (30%) of the total combined voting power of the Company's outstanding securities are transferred to a person or persons different from the persons holding those securities immediately prior to such transaction; or (4) the sale, transfer or other disposition of all or substantially all of the Company's assets in complete liquidation or dissolution of the Company.

Compensation Committee Interlocks and Insider Participation

The Company's Compensation Committee during the 2001 fiscal year consisted of Mr. Goth, who serves as Chairman, Mr. Stuckert and Mr. Gousseland. No member of Committee was, at any time during the 2001 fiscal year or at any other time, an officer or employee of the Company. No executive officer of the Company served on the Compensation Committee or another entity, or any other committee of the board of directors of another entity performing similar functions during the Company's last fiscal year.

Board Compensation Committee Report on Executive Compensation

The Compensation Committee of the Board of Directors (the "Committee") is responsible for setting and administering the policies that govern the compensation for the executive officers of the Company. The Compensation Committee evaluates the performance of management and recommends to the full Board of Directors the compensation level for all officers and key employees. The Compensation Committee also administers the Company's Equity Incentive Plan and determines the amount of stock options granted to officers and key employees. The Committee is comprised of three outside directors appointed annually by the Board of Directors.

The primary objectives of the Company's executive compensation program are: to attract and retain key executives who are critical to the long-term success of the Company by offering compensation packages believed to be appropriate in light of compensation in the industry; to provide an economic framework that will motivate executives to achieve goals consistent with the Company's business strategy; to reward performance that benefits all stockholders; and to provide a compensation package that recognizes individual results and contributions to the overall success of the Company.

The Committee's policy objectives are to pay base salaries that are comparable with those paid by the mining industry. Due to the Company's small staff, compensation practices are flexible and entrepreneurial, with compensation geared to meeting the requirements of the Company and the individual. Bonus payments are paid when individual performance and significant achievements for the Company's future revenue growth or other circumstances warrant special recognition. Bonuses are based upon the contribution of each individual and are usually paid on an annual basis. Long-term incentives, in the form of stock options, are another component of executive compensation and are granted to ensure an incentive exists to maximize shareholder wealth by tying executive compensation to share price performance, and to reward those executives making a long-term commitment to the Company.

The Committee is responsible for considering various information when reviewing salary levels and when making recommendations to the full Board. When reviewing individual performance of officers of the Company, the Committee also takes into account the views of the Company's Chairman and Chief Executive Officer. Before or at the end of each year, the Committee evaluates each officer's performance in order to determine whether to recommend the payment of bonuses and/or options and, if so, the amount of each such bonus and/or options.

In making recommendations concerning executive compensation, the Committee reviews individual executive compensation, individual performance, corporate performance, stock price appreciation, and total return to stockholders of the Company. The salary levels of the Company's executives and officers are usually established by the Board of Directors at its June meeting.

The Committee also reviews and approves stock option awards, under the Company's Equity Incentive Plan. The purpose of stock option awards is to provide key employees with an incentive to continue as employees of the Company over a long term, and to align such employees' long range interests with those of the stockholders by providing the opportunity of having an equity interest in the Company. The Committee grants stock option awards based on salary, level of responsibility, and performance. All stock options are granted with an exercise price equal to the market price of the Common Stock on the date of grant. Incentive Stock Options vest in one year and have a 10-year term. Non-Statutory Options typically vest on the date of grant and have a 10-year term.

During the fiscal year ended June 30, 2001, options to acquire 105,000 shares were awarded to officers of the Company and options to acquire 5,000 shares were awarded to employees of the Company who are not officers or directors.

Chief Executive Officer. In evaluating the performance and setting the compensation of the Chairman and Chief Executive Officer, the Committee took into account the base salaries of chief executive officers of other royalty and mining companies, including those companies that are listed in the Cumulative Total Shareholder Return Chart, and the assessment of Mr. Dempsey's individual performance, including his leadership with respect to the development of long-term business strategies for the Company to improve its economic value. The Committee also took into account the longevity of Mr. Dempsey's service to the Company and its belief that Mr. Dempsey is an excellent representative of the Company to the public by virtue of his stature in the community and the industry in which the Company operates.

The Committee believes that the Chairman and Chief Executive Officer, as well as the other officers of the Company, are strongly motivated and are dedicated to the growth of the Company and to increasing stockholder value. Because of the leadership provided by the Chairman and other officers of the Company, the Committee felt that bonuses should be awarded for the Chairman as well as the other officers of the Company. Therefore, in fiscal 2001, a bonus of \$90,000 was awarded to the Chairman, and bonuses totaling \$180,000 were awarded to the other officers.

No salary increase was given to the Chairman and only one officer of the Company received a salary increase in fiscal year 2001.

Audit Committee Report

The Company's Audit Committee is comprised of three independent members, each of whom is able to read and understand fundamental financial statements and at least one of whom has past employment experience in finance or accounting or other comparable experience. The Committee actively oversees the Company's financial condition, ensures that the Company's corporate economic value is enhanced, and sees that the Company achieves legal and ethical compliance. The main function of the Audit Committee is to ensure that effective accounting policies are implemented and that internal controls are put in place in order to deter fraud, anticipate financial risks and promote accurate, high quality and timely disclosure of financial and other material information to the public markets, the board and the stockholders. The Audit Committee also reviews and recommends to the board the approval of the annual financial statements and provides a forum, independent of management, where the Company's auditors can communicate any issues of concern.

The independent members of the Audit Committee believe that the present composition of the Committee accomplishes all of the necessary goals and functions of an audit committee as recommended by the Blue Ribbon Committee on Improving the Effectiveness of Corporate Audit Committees and adopted by the U.S. stock exchanges and the Securities and Exchange Commission. In accordance with the promulgated new rules regarding audit committees, the Audit Committee has adopted a formal, written charter (Appendix A) approved by the full Board of Directors of the Company. The Charter specifies the scope of the Audit Committee's responsibilities and how it should carry out those responsibilities.

The Audit Committee has reviewed and discussed the audited financial statements of the Company for the fiscal year ended June 30, 2001, with the Company's management. The Audit Committee has discussed with PricewaterhouseCoopers LLP, the Company's independent public accountants, the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees). The Audit Committee has also received the written disclosures and the letter from PricewaterhouseCoopers LLP required by Independence Standards Board Standard No. 1 (Independence Discussion with Audit Committees) and the Audit Committee has discussed the independence of PricewaterhouseCoopers LLP with that firm.

Based on the review and discussions with the Company's auditors for the fiscal year ended June 30, 2001, the Audit Committee recommended to the Board of Directors that the financial statements be included in the Company's Annual Report on Form 10-K.

Pension Plans

In fiscal 1994, the Company established a variation of a Simplified Employee Pension ("SEP") Plan, known as a Salary Reduction/Simplified Employee Pension Plan ("SARSEP"). Management chose this Plan because of regulatory compliance simplicity, avoidance of significant administrative expense, availability of substantial tax-advantaged investment opportunities, and relative freedom from significant vesting or other limitations. Under this Plan, the Company may contribute to a designated IRA account, on an annual basis, up to 15% of each employee-participant's base compensation. Each such contribution would, within limits, be a deductible expense to the Company; would be free of federal income taxation as to the employee; and would be subject to continuing investment, on a tax-deferred basis, until assets are actually distributed to the employee. All employees of Royal Gold are eligible to participate in the Company's SEP Plan.

ROYAL GOLD INC.
CHARTER OF THE AUDIT COMMITTEE**

Organization

There shall be a committee of the Board of Directors to be known as the Audit Committee. The Audit Committee shall be composed of at least three (3) directors who are independent of the management of the corporation and are free of any relationship that, in the opinion of the Board of Directors (which shall be guided by any applicable rules of the Securities and Exchange Commission and the listing requirements of the applicable securities market), would interfere with their exercise of independent judgment as a committee member.

Statement of Policy

The Audit Committee shall provide assistance to the corporate directors in fulfilling their responsibility to the shareholders, potential shareholders, and investment community relating to corporate accounting, reporting practices of the corporation, and the quality and integrity of the financial reports of the corporation. In so doing, it is the responsibility of the Audit Committee to maintain free and open means of communication between the directors, the independent auditors, and the financial management of the corporation.

Responsibilities

In carrying out its responsibilities, the Audit Committee believes its policies and procedures should remain flexible, in order to best react to changing conditions and to ensure to the directors and shareholders that the corporate accounting and reporting practices of the corporation are in accordance with all requirements and are of the highest quality.

In carrying out these responsibilities, the Audit Committee will:

1. Hold such regular meetings as may be necessary and such special meetings as may be called by the chairman of the Audit Committee or at the request of the independent auditors of the corporation.
2. Review and recommend to the directors the independent auditors to be selected to audit the financial statements of the corporation and its divisions and subsidiaries. Where appropriate, and as a result of the independent auditors' ultimate accountability to the Board of Directors and the Audit Committee as representatives of the stockholders, replace or recommend the replacement of the independent auditors.
3. Meet with the independent auditors and financial management of the corporation to review the scope of the proposed audit for the current year and the audit procedures to be utilized, and at the conclusion thereof review such audit, including any comments or recommendations of the independent auditors.
4. Review with the independent auditors and the Company's financial and accounting personnel, the adequacy and effectiveness of the accounting and financial controls of the corporation, and elicit any recommendations for the improvement of such internal control procedures or particular areas where new or more detailed controls or procedures are desirable. Particular emphasis should be given to the adequacy of such internal controls to expose any payments, transactions, or procedures that might be deemed illegal or otherwise improper.

5. Ensure the receipt from the independent auditors of a formal written statement delineating all relationships between the auditor and the company, consistent with Independence Standards Board Standard 1; and to actively engage in a dialogue with the independent auditor with respect to any disclosed relationships or services that may impact the objectivity and independence of the auditor, and to take, or recommend that the board take, appropriate action to ensure the independence of the independent auditor.
6. Review the internal financial function of the corporation including the independence and authority of its reporting obligations, the proposed audit plans for the coming year, and the coordination of such plans with the independent auditors.
7. Receive, prior to each meeting, a summary of findings from completed internal audits and a progress report on the proposed internal audit plan, with explanations for any deviations from the original plan.
8. Review the financial statements contained in the annual report to shareholders with management and the independent auditors to determine that the independent auditors are satisfied with the quality of disclosure and content of the financial statements to be presented to the shareholders. Any changes in accounting principles should be reviewed.
9. Provide sufficient opportunity for the independent auditors to meet with the members of the Audit Committee without members of management present. Among the items to be discussed in these meetings are the independent auditors' evaluation of the corporation's financial, accounting, and auditing personnel, and the cooperation that the independent auditors received during the course of the audit.
10. Review accounting and financial human resources and succession planning within the company.
11. Submit the minutes of all meetings of the Audit Committee to, or discuss the matters discussed at each committee meeting with, the Board of Directors.
12. Provide in the proxy statement a report that describes the Audit Committee's composition and responsibilities, and how such responsibilities were executed.
13. Investigate any matter brought to its attention within the scope of its duties, with the power to retain outside counsel for this purpose if, in its judgment, that is appropriate.
